The Nominet Trust

This Trust offers early-stage investment to entrepreneurs who are looking to develop new ventures using digital technologies for social impact. This programme will provide funding and support to help entrepreneurs nurture, develop and test their ideas.

Grants are typically between £15,000 and £50,000 and are accompanied by a package of non-financial business support including mentoring, marketing, business development expertise and networking opportunities. Each venture will also have access to a discretionary fund of up to £5,000, should specific expertise be needed to support their early-stage development.

The Nominet Trust is looking for applications that demonstrate the potential of technology to tackle some of the big social issues in sectors including education, employability, healthcare and the environment.

Projects must be based in England and:

- target adult carers caring for another adult (over the age of 18 years)
- reach a minimum of 50 carers (all of whom should be new to the service)
- build on or adapt an existing service
- have volunteers as core to the delivery of the service

The LankellyChase Foundation

LankellyChase Foundation focuses exclusively on bringing about change that will transform the quality of life of people who face severe and multiple disadvantage.

By this, the Foundation means people who are experiencing a combination of severe social harms such as homelessness, substance misuse, mental illness, extreme poverty, and violence and abuse.

If you think your project (large or small, short or lengthy) can help towards their mission, they would like to hear from you. LCF strongly suggest you read Theory of Change before applying. They are looking for proposals that offer something new in addition to the work that they are already supporting through the Promoting Change Network.

There is no minimum or maximum amount to apply for; they make grants across a fairly wide spectrum of sizes.

Applying entails a two stage process; first an Expression of Interest, followed by a full application. Applications can be submitted at anytime.

Joseph Rowntree Reform Trust (JRRT)

The JRRT funds progressive campaigns which are too political for most other funders. They do not run formal grants programmes but do have a long-standing interest in backing activists defending civil liberties and striving for positive political change and democratic reform.

Their priority is to support overtly political causes that confront corrosive powers in our democracy and seek changes that rebalance power for the well-being of our society. You can find out more about grantees and the sort of work they fund by looking at their latest publication *Speaking Truth to Power* and the *Grants We Have Awarded* sections of JRRT's website.
